Projects

2025	Shereads (Local) <i>MIS</i> I'm developing SHEREADS, a local MIS that recommends books for girls based on a quiz. Built with Laravel and Livewire, it includes an admin panel for managing books and questions.	
10/2024 – present	Storage (Local) <i>MIS</i> I'm constructing a MIS for managing self-storage; with this MIS, administrators can rent rooms for their clients while also tracking the rooms and clients' renting periods and prices.	

06/2024 – 08/2024

The Hope (Local) [🔗](#)

MIS

This MIS allows donors to register an account, select one or more street children, and donate monthly or yearly. Donors may also view the school activities of the children for whom they donate.

2024

Painting shop [🔗](#)

E-commerce wordpress website

I made a website for an Afghan client so they could add their products (Paints) and have customers browse and order from it.

2023

Scholar [🔗](#)

Scholarship and Job posting website

I created a website for posting scholarships and jobs. On this website, we can publish scholarships and jobs, and users may identify the specific scholarship or job and apply for it.

2025

Abuud Clothing store [🔗](#)

E-Commerce website

At Shenaas Marketing Agency [🔗](#), we developed a website for a client in the United Arab Emirates that would enable them to add clothing and let their customers browse and place orders. and it is within my responsibility to develop that.
